Description

F115LB Yamaha 4 Stroke 115hp Long ShaftEFIOUTBOARD FOR SALE

The Yamaha F115LB is an engine that punches well above its weight. With great power, fuel economy and reliability this engine is a standout performer.

The inline four cylinder configuration with its double overhead camshaft and four valves on each cylinder allows smooth exchange of intake fuel and exhaust for more power. This is matched with an electric fuel injection system that delivers just the right fuel/air mixture for any load and speed for excellent power and economy.

F115LB has always been extremely popular for repowering older boats. Imagine the feeling of powering to your favourite fishing spot faster and more efficiently than you ever thought possible... in your favourite old boat!

Your new Yamaha EFI engine is the ultimate in reliability and technological innovation. The F115LB can be matched with the leading edge Yamaha Digital Network System. Which means you have up to the second information on the operation of your outboard at your fingertips.
