

F130LA Yamaha 4 Stroke 130hp Long Shaft, Electric Start, Power Trim & Tilt OUTBOARD FOR SALE

OUR PRICE: \$11614.38

F130
Versatile Power

Light, compact and incredibly versatile for 130, the all-new benchmarks for weight and performance in the mid-range horsepower market are set, on Yamaha's proud heritage of exceptional outboard 130 horsepower engines.

This outboard was designed with Australian boaters in mind and delivers immense acceleration and mid-range responsiveness as well as incredible fuel efficiency.

ENGINE PERFORMANCE

- No Valve 1832cc four cylinder engine
- Lightweight and extremely quiet design
- Electronic throttle valve for incredible response, power and economy
- Compatible with all of Yamaha's premium colour and digital gauges
- Variable trolling control for low speed low fishing
- Exclusive VEC valve for maximum corrosion protection
- Fuelwater Suction device for easy and quiet maintenance
- Compatible with Yamaha's 555 range of Shock Dampening properties
- ECM Micro computer control for maximum efficiency
- High output alternator to power all your electronics
- WAKA2000 compatible for easy connection to other devices
- Single line power trim and tilt unit

TECHNICAL SPECIFICATIONS

Engine Type	16 Valve 4 Stroke
Configuration	Double Shafted
Ignition System	CDI
Stroke/Cycle	2 / 148 mm
Displacement	1832cc
Max. Rev./Min	5200 / 600
Max. Torque	117 Nm
Weight	172 kg
Transom Mount	20" (508 mm) / 22" (559 mm)
Lower Unit	40 mm
Shaft Material	Aluminium Alloy
Shaft & Propeller	Power Trim & Tilt
Fuel Injection System	Electronic Fuel Injection
Alternator Output	40A (2000W) / 50A
Serial No.	1-2-1-1
Right/Left	Universal
Warranty	3 Years

Description

F130LA Yamaha 4 Stroke 130hp Long Shaft, Electric Start, Power Trim & Tilt OUTBOARD FOR SALE

The Most Advanced Motor In Its Class.

Lifting the mid-range horsepower segment to a whole new level, Yamaha's all-new F130A employs the latest technology in a refined, efficient and light-weight package. Purpose built from the ground up to go the distance in the harsh marine environment, the F130A sits in between the best-selling F115 and F150 outboard engines and is ideally suited to boats in the popular 5 – 6m size range.

Weighing in at a class-leading 172kg, the F130A trims the fat by utilising a light and compact power trim & tilt unit and the latest light-weight materials throughout the engine and the cowl design.

The superior refinement of the silky-smooth, twin-camshaft, 4-cylinder design and unmatched power-to-weight ratio, translates to unrivalled fuel economy, reliability and performance.

The F130A is a technological symphony of exclusive Yamaha engineering - playing host to the latest combination of innovative, efficient and performance oriented technology. Utilising a 16-valve, 1832cc, in-line 4-cylinder engine from the F115B, the F130A delivers something completely new through the addition of cutting-edge technology usually only found in Yamaha's high-horsepower line-up. This includes the use of a single electronic throttle valve that interprets the input from the mechanical control at the helm and deliverers the optimum throttle movement for exact response and precision control. This system works in tune with a completely new fuel injection and ignition system. The F130A has been designed with a 5mm offset crankshaft for efficient combustion and durability as well as an enhanced lower gear unit to reliably transfer the extra torque to the water.

Compact and light-weight in design, the F130A's performance and efficiency makes it the ideal power option.

Available in:

- F130LA- Electric Start, Tilt System - Electric Start, Transom height - Long
- F130XA- Electric Start, Tilt System - Electric Start, Transom height - Extra Long

General Features:

- 1.8 Litre, EFI, DOHC, In-line 4-Cylinder, 16 valve engine
- 5mm Offset CrankshaftDouble overhead camshaft
- 81mm Cylinder Bore
- Multi-Point Electronic Fuel Injection
- Electronic Throttle Valve (ETV)
- Best in-class charging power
- Command Link (optional)

SF Industrial Ave, Los Angeles, CA, 90034, USA

- Variable Trolling Speed
- Shift Dampener System Propeller (SDS™)
- Enhanced Lower gear unit (transmission)

Price includes:

- Outboard
- Water test
- Free prop exchange

Price does not include:

- Yamaha Alloy Prop
- Yamaha 703 Side Control Box and Yamaha looms/wiring
- 2x Yamaha multi function digital gauges(Tacho and Speedo, Fuel level, Battery level, Trim, Hours, Warnings, etc)
- Battery, Steering, Fuel filter, Fuel tank
- Fitting(dependent on boat configuration - as a guide \$500 to \$750 for a single outboard of this size)
- Trim limiter(if required)

SPECIFICATIONS

Engine Type 4-Stroke, 16 Valve DOHC Direct Action In-line 4

Displacement 1832 cc

Bore x Stroke 81.0 x 88.9 mm

Recommended Max RPM 5300-6300

Lubrication System Wet-sump

Fuel Management EFI

Ignition TCI

Starter System Electric

Alternator Output 12V - 35A with rectifier regulator

Operation Method Remote control

Trim & Tilt Method Power trim & tilt

Digital Gauges Optional

Digital Network Gauges with Fuel Management Optional

Gear Ratio 2.15 : 1

OEDA Emission Rating Three Stars

DIMENSIONS

Height

- F130LA : 516 mm (20.3 in)
- F130XA : 643 mm (25.3 in)

Weight

- F130LA : 172 kg
- F130XA : 178 kg

CDI-E: CDI-Electronic Automatic

CDI-M: CDI-Microcomputer

TCI: Transistor Controlled Ignition

Prices do not include fitting or accessories where applicable.

It is a Yamaha Australia stipulation that all Yamaha Outboards be fitted and personally delivered by the selling Yamaha outboard dealership.
